Unlimited color choices to support brand or culture initiatives are available. Contact your sales rep to learn more about custom color matching.

*These finishes available on trim only; not available on shells.

There may be slight variations in color, texture, and finish between these printed samples and the actual product.

Samples and Replacement Cards

are available through the literature ordering system at ki.com/literature or from your KI Sales Representative.

- Please refer to KI Architectural Wall Color Addendum for details.
- There may be slight variations in color, texture, and finish between these printed samples and the actual product.
- Other finishes (upon review) can be used.
- Custom Colors – For quicker service and better matching, please refer to the Benjamin Moore® or Sherwin Williams® swatch deck. KI vendors provide color-matched samples based on the numbers listed in these swatch decks. Or, send an actual sample to the KI Architectural Wall Department, 1330 Bellevue Street, Green Bay, WI 54302. When trying to match a metallic, all attempts will be made to duplicate the color sample provided; content may be altered during the process to ensure a consistent, aesthetically pleasing coating on the finished wall components. Custom colors must be approved by the customer 4 weeks prior to the ship date to avoid additional lead time. There is an additional set-up charge for custom powdercoat colors on projects totaling less than 200 linear feet.
