on oak  
OCA  
FS-2113 - Wall Rift Cut

**ECLYPSE BLACK**  
on beech  
BEB  
FS-4812 - Wall Flat Cut

## ■ Finish Color Availability

- Not all finish colors are available on all KI products. Refer to price lists for color options by product. [www.ki.com/pricelists](http://www.ki.com/pricelists)
- Custom color matches may require an upcharge and extended leadtimes.
- Wall veneers are available as flat cut or quarter cut, except for oak veneers, which are rift cut only.

## ■ Samples and Replacement Cards

- Wood finish sample chips are available – contact your KI Sales Representative or KI Customer Service.

## ■ Finish Color Variations

- Note: Variations can occur in texture, color, grain pattern and finish penetration due to natural variation in wood veneers used. Therefore, finished pieces may vary in tone or character from the printed finishes on this card or wood veneer sample chips. This card and wood veneer sample chips are not intended to be used for final color approval. Please contact your KI Sales Representative or KI Customer Service to order larger production samples for a representation of specified product appearance and for purposes of color approval. No guarantee can be made of an exact match due to the inherent, natural variations described.
- Wood is a natural material and variations are part of its inherent beauty and are not considered defects.
- All wood finishes darken with age and exposure to ultraviolet light. This is more apparent with cherry and maple veneers.

## ■ KI High Point Wood Finishes

- All KI High Point wood finishes have a poly-based clear coat for added durability and cleanability – tested to BIFMA Healthcare Furniture Guidelines for Cleanability.
